DAFTAR ISI

KATA PENGANTAR .................................................................................. i
DAFTAR ISI ................................................................................................ ii
DAFTAR TABEL ......................................................................................... v
DAFTAR LAMPIRAN ................................................................................. vi
DAFTAR GAMBAR ................................................................................... vii

BAB I PENDAHULUAN .............................................................................. 1
1.1 Latar Belakang .................................................................................. 1
1.2. Rumusan Masalah ........................................................................... 5
1.3. Tujuan Penelitian ........................................................................... 5
1.4. Ruang Lingkup Penelitian .............................................................. 6

BAB II TINJAUAN PUSTAKA ................................................................... 8
2.1. Diabetes Mellitus .............................................................................. 8
2.1.1. Definisi Diabetes Mellitus .......................................................... 8
2.1.2. Gejala Diabetes Mellitus ............................................................. 9
2.1.3. Klasifikasi Diabetes Mellitus .................................................... 10
2.1.4. Penegakkan diagnosis Diabetes Mellitus .................................. 13
2.1.5. Patogenesis Diabetes Mellitus Tipe 2 ....................................... 15
2.1.6. Patofisiologi Diabetes Mellitus Tipe 2 ..................................... 17
2.1.7. Faktor Risiko Diabetes Mellitus Tipe 2 ................................... 19
2.1.8. Penatalaksanaan Diabetes Mellitus Tipe 2 ............................... 20
2.1.9. Diet Diabetes Melitus ................................................................. 26
2.2. Kepatuhan Diet ............................................................................... 32
2.2.1. Definisi Kepatuhan Diet ........................................................... 32
2.2.2. Faktor-faktor yang mempengaruhi kepatuhan diet ............... 32
2.2.3. Kepatuhan diet dan Kontrol Glukosa darah ............................ 35
2.3. Aktivitas Fisik ............................................................................... 36
2.3.1. Definisi Aktivitas Fisik ............................................................. 36
2.3.2. Metode Pengukuran Aktivitas Fisik ................................................ 36
2.3.3. Aktivitas Fisik bagi Diabetes Mellitus Tipe 2................................. 37
2.3.4. Aktivitas Fisik dan Glukosa darah .................................................. 38
2.4. Glukosa Darah Puasa ........................................................................... 40
2.4.1. Definisi Glukosa Darah Puasa.......................................................... 40
2.4.2. Faktor yang mempengaruhi kadar glukosa darah ......................... 40
2.4.3. Glukosa darah puasa dan Komplikasi Penyakit ............................. 41
2.5. Komplikasi Penyakit Diabetes Melitus Tipe 2................................. 42
2.5.1. Komplikasi Penyakit Diabetes Melitus Tipe 2 ................................ 42
2.5.2. Faktor-faktor yang mempengaruhi kejadian Komplikasi Penyakit Diabetes mellitus Tipe 2 .................................................. 47
2.6. Survei Konsumsi Pangan .................................................................. 48
2.6.1. Definisi Survei Konsumsi Pangan.................................................... 48
2.6.2 Semi-quantitative Food Frequency Questionnaire (SFFQ) .......... 49
2.7 Food Recall 24 jam............................................................................. 50
2.8 Metode Penelitian Studi Literatur......................................................... 51

BAB III KERANGKA KONSEP DAN DEFINISI OPERASIONAL ........ 53
3.1 Kerangka Konsep .............................................................................. 53
3.2. Definisi Operasional........................................................................... 54

BAB IV METODOLOGI PENELITIAN....................................................... 59
4.1 Desain Penelitian................................................................................ 59
4.2 Tempat dan Waktu Penelitian.............................................................. 59
4.3 Data dan Tahapan Penelitian ............................................................... 59
4.3.1 Jenis Data ......................................................................................... 59
4.3.2 Tahapan Penelitian .......................................................................... 60
4.4 Kriteria Inklusi dan Eksklusi ............................................................... 61
4.4.1 Kriteria Inklusi ................................................................................. 61
4.4.2 Kriteria Eksklusi ............................................................................... 61

BAB V HASIL DAN PEMBAHASAN ...................................................... 62
5.1. Desain Penelitian .............................................................................. 62
5.2. Gambaran umum Karakteristik responden ...................................... 66
5.3. Gambaran Kepatuhan diet ............................................................. 69
  5.3.1 Gambaran Kepatuhan diet menurut Jumlah ............................. 72
  5.3.2. Gambaran Kepatuhan diet menurut Jenis ............................. 75
  5.3.3. Gambaran Kepatuhan diet menurut Jadwal .......................... 77
5.4. Gambaran Aktivitas Fisik .......................................................... 78
5.5. Gambaran Kadar glukosa darah puasa .................................... 80
5.6. Gambaran Komplikasi Penyakit DM tipe 2 .............................. 82
5.7. Gambaran Kepatuhan diet dan Kadar Glukosa darah puasa ........ 83
5.8. Gambaran Aktivitas Fisik dan kadar glukosa darah puasa ......... 85
5.9. Gambaran glukosa darah puasa dan komplikasi penyakit ......... 87
BAB VI SIMPULAN DAN SARAN ....................................................... 91
  6.1. Simpulan .................................................................................. 91
  6.2. Saran ...................................................................................... 92
DAFTAR PUSTAKA ............................................................................ 93
LAMPIRAN ....................................................................................... 98
