* Study setting:
- Put suitable references for measuring the density of flies and cockroaches, and for measuring the temperature and humidity of the room.
- Why the exposure time is set for 3 levels (30 minutes, 45 minutes, and 60 minutes)? Is there a reference for that?
- Why the observation time is set for 2 consecutive days? Is there a reference for that?
- Mention the season when the experiment was carried out.

* Put a suitable reference for the extraction method of Clove Flower and Bay leaf.
* Repellence Test: It is better to put the references [30], [38], and [39] after each paragraph belonging to it, not at the end of the whole paragraph.
* Put a suitable reference for the statistical analysis.

Discussion:
• The second paragraph; "The presence of flies and cockroaches in of food processing [39]" should be omitted.
• The third paragraph; "Our study showed that Clove flower extract formula..... widely

Reviewer E:
Recommendation: Revisions Required

Comments to the Author

General:

- Grammar should be checked, and spelling must be revised in the whole text, as they are plenty.
- References are too many. Try to minimize them.

Introduction:

- Too many references (37 ref.) exist in the introduction. Try to minimize them.
- The first paragraph had no reference; "Food processing areas are very attractive to....." Put a suitable reference for it.
- In the second paragraph; "Pathogenic microorganisms that can be spread by....." Try to reduce the number of references you mentioned (Ref. 7-14).
- The third paragraph; "Food processing areas are very popular with.....cockroaches caught [15]" should be re-written properly in a clear manner.
- In the fifth paragraph; "Indonesia has a variety of biodiversity, and many....."

1.823 dari 2.893

[15]" should be re-written properly in a clear manner.

- In the fifth paragraph; "Indonesia has a variety of biodiversity, and many....."
- Ref. No. 28 is repeated in the "The very strong smell of Eugenol can repel flies from landing on food [28], [17], [28], [29], [30]"
- Also try to reduce the number of references (Ref. 17, 28-30).
- This sentence "Cloves and bay leave in daily....." had no reference. Put a suitable reference for it.
- This paragraph "The biological activity of extracts against insects....." had no reference. Put a suitable reference for it.

• In the sixth paragraph; "The use of botanical pesticides derived from....."

- "In this study, researchers packaged two types of Clove flower extraction..... repel two or more types of insects." Replace 'researchers' with 'authors' and put this whole paragraph at the end of the introduction.

Materials & Methods:

* Study setting:

- Put suitable references for measuring the density of flies and cockroaches, and for measuring the temperature and humidity of the room.
- Why the exposure time is set for 3 levels (30 minutes, 45 minutes, and 60 minutes)? Is there a reference for that?
